SACRAMENTO CA 95835

**SUBJECT: REPAIR / REPLACEMENT OF BACKFLOW PREVENTION ASSEMBLY AT:  
7601 LAGUNA BLVD ELK GROVE CA 95758 -DEVICE ID: BD0004599**

Dear LAGUNA CROSSROADS:

**Background** Sacramento County Code Title 6, Chapter 6.30, Section 6.30.110 requires the Owner and/or Operator to repair or replace any defective backflow prevention assembly (assembly) at their facility. On 7/2/2017, the submitted test report indicated an assembly at this location failed field testing and that repair or replacement of the defective device is required.

**Actions Required** You are hereby directed to correct the following violation(s) **within fifteen (15) days of the date of this Notice:**

1. Repair or replace the defective assembly at the water service connection. For a list of approved assemblies, visit <http://www.emd.saccounty.net/EC/Pages/CrossConnection.aspx>
2. After repair or replacement, the assembly must be tested by an EMD registered backflow assembly tester, and annually thereafter.
3. Once the assembly passes field testing, an EMD annually issued tag shall be affixed to the assembly. The tag serial number shall be included on the test report submitted to EMD.
4. Completed test reports must be electronically submitted to EMD within 20 calendar days from the date of the test.

**Be advised that failure to comply with the above requirements may result in enforcement action being taken against you.**

**Water Supplier Specifications** Please contact your water supplier for instructions and specifications prior to replacement of any assembly.
